

# KALLOUCHE ABDERRAOUF

Backend Developer

+(213) 7-79-55-74-67 | [kaabdo2004@gmail.com](mailto:kaabdo2004@gmail.com)

 [Abd Erraouf Kallouche](#) |  [Kallouche Abderraouf](#) |  [Portfolio](#)  
Algeria

## Summary

Computer Science graduate specializing in backend development, with hands-on experience designing REST APIs, relational database schemas. Skilled in Node.js, Express.js, PostgreSQL, with practical experience implementing authentication and multi-tenant system design across full-stack projects.

## Education

- **Hassiba Ben Bouali University** *September 2021 – June 2024*  
*Bachelor's Degree in Computer Science* Chlef, Algeria
- **Hassiba Ben Bouali University** *June 2026*  
*Master's Degree in Computer Science* Chlef, Algeria

## Projects

- **Monos – Multi-Tenant SaaS Platform for Tourist Complex Management** *January 2026 – July 2026*  
*TypeScript, Node.js, Express.js, PostgreSQL, Redis, Drizzle ORM, Turborepo, Bun, REST APIs* 
  - Co-architected a multi-tenant SaaS backend to centralize management of tourist complexes, designing modular microservices for authentication, tenant management, CRM, POS, accounting, and staff operations.
  - Designed PostgreSQL data models with Drizzle ORM and implemented Redis caching and token management within a scalable monorepo architecture (Turborepo, Bun).
  - Implemented JWT-based authentication and token refresh flows to secure REST endpoints across tenant boundaries.
  - Containerized backend services with Docker to standardize local development and streamline deployment across services.
- **My-Chat** *April 2025 – May 2025*  
*React.js, Tailwind CSS, Express.js, Node.js, Socket.io* 
  - Built a real-time messaging backend supporting both private and group conversations using Express.js and Socket.io.
  - Designed the data layer to ensure message integrity and secure handling of user data.
  - Owned the project end-to-end, from architecture and API design through deployment.
- **Cosmetic Products Website** *January 2024 – May 2024*  
*HTML, CSS, JavaScript, PHP* 
  - Built the backend for a full-stack e-commerce application (PHP) handling order management and automated total price calculation.
  - Implemented secure handling of user data and transaction processing.
  - Applied Agile and Scrum methodologies to manage project tasks and delivery.

## Technical Skills

- **Languages:** JavaScript, TypeScript, PHP, Java, HTML, CSS
- **Backend:** Node.js, Express.js, REST API design, API security (JWT auth, rate-limiting)
- **Databases & ORMs:** PostgreSQL, MySQL, Drizzle ORM, Prisma ORM
- **Caching & Real-Time:** Redis, Socket.io
- **Infrastructure:** Docker, Docker Compose
- **Front-End (supporting):** React.js, Tailwind CSS
- **Tools & Practices:** Git, GitHub, Firebase, Agile, Scrum, Code Reviews, Pair Programming

## Languages

- **Arabic:** Native
- **English:** Advanced
- **French:** B1 (TCF Certification)
- **Spanish:** A1 (CIEL School)
